Environmental and Sustainability Policy

The electronics industry operates within a framework of legislation and standards aimed at mitigating environmental impact.

Kolff Computer Supplies B.V. is dedicated to adhering to all relevant environmental regulations, including customer-specific requirements .

We maintain rigorous controls throughout our design and production processes to ensure compliance with these standards, including but not limited to:

- RoHS (Restriction of use of Certain Hazardous Substances)
- REACH (Registration, Evaluation, Authorization, and Restriction of Chemicals)
- WEEE (Waste Electrical & Electronic Equipment)

Our commitment to quality is underscored by our ISO 9001:2015 certification. We meticulously monitor our research and development and production divisions, as well as our entire supply chain, to uphold the highest quality standards.

In selecting components, we prioritize partnerships with world-leading electronic component manufacturers and their authorized distribution partners. Companies such as Texas Instruments, MuRata, Nordic Semiconductor, TDK, Yageo, Semtech, and Quectel, renowned for their environmental and sustainability policies, are preferred suppliers. Through these collaborations, Kolff Computer Supplies B.V. remains steadfast in our commitment to responsibility and environmental conservation.

Disclaimer:

All information in this declaration is given to the best of our present knowledge and belief. It is based on analysis, vendor supplied analysis or material certifications, supplier declarations in any means, and/or lab test results of the component raw materials used in the manufacturing process of TraceME products. The information given doesn't imply giving a warranty within the meaning of the warranty law.
